Clicks is a new software architecture for building flexible and configurable routers. A Click router is assembled from packet processing modules called elements. Individual elements implement simple router functions like packet classification, queuing, scheduling, and interfacing with network devices. A router configurable is a directed graph with elements at the vertices; packets flow along the edges of the graph. Several features make individual elements more powerful and ...

Your search for **+master +slave +debug interface controller card** did not return any results.

You may want to try an [Advanced Search](#) for additional options.

Please review the [Quick Tips](#) below or for more information see the [Search Tips](#).

Quick Tips

- Enter your search terms in lower case with a space between the terms.

sales offices

You can also enter a full question or concept in plain language.

Where are the sales offices?

- Capitalize proper nouns to search for specific people, places, or products.

John Colter, Netscape Navigator

- Enclose a phrase in double quotes to search for that exact phrase.

"museum of natural history" "museum of modern art"

- Narrow your searches by using a **+** if a search term must appear on a page.

museum +art

- Exclude pages by using a **-** if a search term must not appear on a page.

museum -Paris

Combine these techniques to create a specific search query. The better your description of the information you want, the more relevant your results will be.

museum +"natural history" dinosaur -Chicago

This paper addresses the selection of technologies that provide each student group a dedicated environment on a non-dedicated host machine. The authors investigated different combinations of enabling technologies and approaches, such as virtual machine technology, storage technology, and host operating system. Performance tests were developed and executed to profile the performance of the technologies. The results of this work provide an evaluation of the studied technologies and a selection gui ...

21 [Projection: Zoom-and-pick: facilitating visual zooming and precision pointing with interactive handheld projectors](#)

Clifton Forlines, Ravin Balakrishnan, Paul Beardsley, Jeroen van Baar, Ramesh Raskar
 October 2005 **Proceedings of the 18th annual ACM symposium on User interface software and technology UIST '05**

Publisher: ACM PressFull text available: [pdf\(2.65 MB\)](#)Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

Designing interfaces for interactive handheld projectors is an exiting new area of research that is currently limited by two problems: hand jitter resulting in poor input control, and possible reduction of image resolution due to the needs of image stabilization and warping algorithms. We present the design and evaluation of a new interaction technique, called *zoom-and-pick*, that addresses both problems by allowing the user to fluidly zoom in on areas of interest and make accurate target ...

22 [Performance modeling of the distributed computing environment](#)

A. Masud Khandker, Jerome A. Rolia, Toby J. Teorey
 November 1995 **Proceedings of the 1995 conference of the Centre for Advanced Studies on Collaborative research**

Publisher: IBM PressFull text available: [pdf\(249.52 KB\)](#)Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

We develop an analytic performance model for client/server communications using Remote Procedure Call (RPC) with no security over the connectionless datagram protocol in the Open Software Foundation's Distributed Computing Environment (OSF/DCE). It combines features from NetMod, a network performance modeling tool, and the Method of Layers which is a software performance modeling tool. The purpose of this paper is to show that it is possible to develop analytic performance modeling techniques fo ...

23 [The end of the CRT?](#)

Bob Myers
 May 1997 **ACM SIGGRAPH Computer Graphics**, Volume 31 Issue 2

Publisher: ACM PressFull text available: [pdf\(317.09 KB\)](#)Additional Information: [full citation](#), [abstract](#), [index terms](#)

Several technologies are becoming serious challengers to the time-honored cathode ray tube (CRT) as the display of choice for desktop use. This shift alone will have an impact on graphics hardware and software, but there are potentially greater changes on the
